Configuring Windows Server 2008 Active Directory Domain Services Coursecode:MS6425

Overview

This 20-hour collection provides IT Professionals with the knowledge and skills to configure Active Directory Domain Services (AD DS) in Windows Server 2008.

Topics covered in the courses within the collection include:

- AD DS and DNS integration
- Group policy object configuration
- Security implementation by using group policies
- AD DS monitoring and maintenance plan implementation

This collection helps you prepare for exam 70-640 TS: Windows Server 2008 Active Directory, Configuring.

Student Prerequisites

- Basic knowledge of networking concepts such as TCP/IP functions: IP addressing, including DHCP addressing; DNS name resolution, including WINS; and connection methods such as wired, wireless, and VPN; and .NET+ or equivalent knowledge
- Completion of online collection 6424: Fundamentals of Windows Server 2008 Active Directory or equivalent knowledge
